

CUSTOMER GUIDE · 2026

Saptta Platform

User & Admin Guide

Everything your team needs after purchase: plans, login, roles, daily workflows, and security — in one short guide.

Saptta HRMS + Saptta Finance · India & GCC · hello@saptta.com · saptta.com

Confidential — for Saptta customers

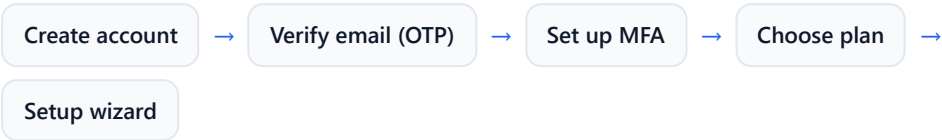

v2026.06

1. Plans & what you get

PLAN	INCLUDES	PRICE (EX-GST)
Saptta HRMS	People, attendance, leave, payroll, recruitment, letters, AI assist	₹4,999/mo · 30 employees · + ₹111/extra
Saptta Finance	GST invoicing, ledger, reports, Tally export, client contracts	₹4,999/mo · unlimited users
Saptta Complete	HR + Finance + portal + AI on one login	₹7,999/mo · save ₹1,999/mo

18% GST at checkout · 14-day free trial · Buy HR only, Finance only, or both — each product is gated to your subscription.

After you sign up

Your signup email becomes the company owner and first **HR Administrator**. Complete the setup wizard: company profile, departments, leave types, and payroll basics.

2. Who logs in & where

ROLE	TYPICAL USER	LOGIN URL	WHAT THEY SEE
Company owner	Director / founder	app.yourdomain.com/login	Product switcher, billing, both HR & Finance
HR Administrator	HR head	Platform login or HR URL	Full HRMS — people, payroll, letters, reports
Finance user	Accountant	Platform login	Finance modules per their access
Manager	Team lead	Platform or employee login	Direct reports — leave, expenses, reviews
Employee	Staff	hr.yourdomain.com/auth/employee-login/	Self-service — punch, leave, payslip, requests

Onboard a new employee

1. HR Admin → **People** → **Employees** → **Add** (official email required).
2. Open profile → **Create login** → send the one-time invite link (valid 7 days).
3. Employee sets password, completes MFA, lands on their dashboard.

Manager tip: Managers must have an employee profile linked to their login. If they see “Manager profile not found,” ask HR to link their user to their employee record.

3. HR Administrator — key workflows

People & org

- Add / import employees
- Departments, designations, locations
- Team Access — assign HR Admin / Manager roles

Time & leave

- Attendance register, shifts, regularizations
- Leave types, holidays, balances
- Approve all pending leave & comp-off (CO)

Payroll (month-end)

- Lock attendance → Monthly review
- Create run → Recompute → Approve → Publish
- Bank advice, salary register, PF ECR exports

HR Ops

- Letters (maker-checker: generate vs approve)
- Company vault & document requests
- Recruitment, assets, exits, announcements

Access at a glance

FEATURE	HR ADMIN	MANAGER	EMPLOYEE
Employee directory / edit	✓	—	—
Approve team leave & expenses	✓	✓ (team)	—
Run & publish payroll	✓	—	—
Own payslip & tax declaration	✓	✓	✓
Recruitment & org reports	✓	—	—
AI policy Q&A chat	✓	✓	✓

4. Manager guide

- **My Team** — see who is on leave, pending approvals.
- **Leave** — approve or reject with optional comment; HR can override.
- **Regularizations** — approve punch corrections for direct reports.
- **Expenses** — approve team reimbursement claims → HR pays via payroll.
- **Performance** — write/submit reviews for open cycles (optional AI draft).
- **Service requests** — hardware/software requests route through you first.

5. Employee self-service

- **Attendance** — punch in/out; request regularization if you missed a punch.
- **Leave** — apply, track status, cancel if still pending; comp-off type **CO** if enabled.
- **Payslips** — download PDF after HR publishes payroll.
- **Tax & Form 16** — submit declarations; download Form 16 when issued.
- **Expenses & loans** — submit claims; view EMI schedule if assigned.
- **Help & requests** — IT, HR, or hardware tickets with status tracking.
- **Policies** — read company policies; ask AI for plain-language answers.

6. Security (what your users experience)

STEP	WHEN	WHAT HAPPENS
Email verification	Signup	6-digit code + link sent to inbox — required before full access
MFA (TOTP)	Every login	Authenticator app (Google Authenticator, etc.) — required for all users
Password reset	Forgot password	Single-use email link
Data isolation	Always	Your company data is tenant-isolated; sensitive fields encrypted

Ask IT to allow email from your Sappta sending domain and to whitelist **app.yourdomain.com** and **hr.yourdomain.com** for staff browsers.

7. Go-live checklist (for your IT / HR lead)

- Complete setup wizard — departments, leave types, holidays, salary structures
- Configure statutory settings (India: PF/ESI/TDS; GCC: jurisdiction-specific)
- Upload letter templates and signatories
- Test one payroll month end on a small group before full rollout
- Share this guide with managers and employees

8. Support

Email: hello@sappta.com · **Web:** sappta.com

For technical deployment, CI, and developer setup, see the internal **README.md** in your Sappta deployment package or request the full project guide PDF from your account manager.
